

scheme of government. In the eyes of the Mexicans there is but one exemplar of the Diaz idea and that is the once beloved Don Porfirio himself.

The question asked everywhere today was, "Will Don Porfirio come back to rule?"

MEXICO CITY RESIGNED TO MILITARY CONTROL.

Mexico City is not only resigned to the restoration of military dictatorship, but even welcomes it as the only way out of the threatening anarchy and confusion on all sides. Cynical acceptance of the assassination of Madero and Pino Suarez under the "ley fuga" as the best possible way to strike fear to the hearts of all who had a lingering loyalty to the deposed Government characterizes the attitude of Mexicans in the capital and most of the foreigners.

Emilio Vasquez Gomez, who is reported to be trying to win the support of Gen. Orozco for the Presidency, is not considered seriously. His main claim to recognition now is the ingratitude shown him by Madero, and he is not regarded as having the slightest chance.

FRANCIS REPORTS MADE TO PACIFY MEXICO.

The Mexican Government today formally declared closed the place of entry at Nuevo Laredo on the Texas frontier, at the same time admitting that the rebels were in possession of the town.

Various deputations of followers of the rebel Emiliano Zapata have conferred today with Provisional President Victoriano Huerta preparatory to entering into negotiation with the new Government. Lively activity on the part of the rebels continues in many parts, but this is said to be counterbalanced by the negotiations for peace begun with the more important bands.

The greatest menace considered by President Huerta and his cabinet is the activity of Emilio Madero in Chihuahua, who is reported to have organized 2,000 Maderistas and declared that he will fight to the death before surrendering to the power of the new regime. A Federal force has been detailed to attack this aggressive member of the wide-spread Madero family.

The report of the execution of Abraham Gonzalez, Maderist Governor of the State of Chihuahua, and said to have been captured yesterday by Federal troops loyal to Huerta, has not yet received verification in this city. Nor is credence put in the companion rumor that Alberto Madero, an uncle of Francisco I. Madero, has been caught and executed in Chihuahua City.

It is reported here, but not confirmed, that ninety-five Federal volunteer soldiers, comprising a part of a garrison which revolted when it was learned that ex-President Madero and Pino Suarez had been murdered, were lined up against a wall and shot to death at sunrise yesterday. The alleged wholesale execution of volunteers by the Huerta-Diaz government took place at Sausal, below Juarez.

The report only served to cow the people of the capital still further and was received by the populace with

silent shrugs of the shoulder. It was looked upon merely as new evidence that the coteries in control of Mexican affairs intend to retain its power and position by the strongest of methods.

The people believe that Huerta has entered upon a reign of terror.

WILSON TAKES HUERTA'S WORD ABOUT KILLING?

A black screamer, described by the words, "I've All the Victims," will hang from these days across the Chamber of Deputies Building. The display of that stranger is a compromise with those who backed a resolution calling for a nine-day adjournment of Congress out of respect for Madero and Suarez.

Ambassador Wilson issued a statement last night admitting that he had no information to the contrary and accepting, therefore, at their face value the Government's explanations of the killing of Madero and Suarez.

Notwithstanding the Ambassador's public declaration of confidence in the good faith of Gen. Huerta, there are persistent rumors that Mr. Wilson has asked for his passport, or has been ordered by Washington to ask for them, and that this is the means taken by the American Government to show its repudiation of the killing of Madero and Suarez.

The insistent circulation of such rumors indicates the apprehension aroused by the reception given in the United States and Europe to the official versions of the midnight slaughter of the deposed Executives.

Evidently the rumors are false, but precedents are being cited by those here who cite them credit. The withdrawal of all diplomatic representatives from Mexico following the murder of the King and Queen is a case in point.

The only published account of the killing of Madero and Suarez containing the charge that it was a deliberate murder has appeared in "El Noticiero," an unimportant paper, and all copies of it have disappeared.

PROMISE ACTION ON THE CLAIMS OF AMERICANS.

Mexico will reply to the note sent to the Government by the State Department at Washington Sept. 15 last with-out delay and American claims for damages growing out of the revolution will receive prompt attention.

Incidentally several other matters pending between the two governments will not be permitted to drag in the past, according to assurances given yesterday to Ambassador Wilson yesterday.

A group of prominent Mexicans is advising the elimination of Huerta from the Provisional Presidency and the installation therein of Jose Yves Limantour, who was Porfirio Diaz's Minister of Finance. He is at present in Paris. The former minister was foreign born, which is a constitutional bar to his election to the Presidency. Those who favor him urge that that restriction be waived.

MRS. LE COMPTE WINS HER LIBERTY; IS DECLARED SANE

Committed to Asylum on Husband's Affidavit, She Is Freed by Court.

WAS CALLED A PAUPER.

After Her Incarceration Husband Took Furniture From Her Home, It Is Alleged.

After three days spent in the insane ward of Kings County Hospital, where she had been sent on the bare word of her husband, who declared she was irrational and a pauper, Mrs. Madeleine Le Compte, whose marital troubles have occupied public attention in the last few months, was brought into the Brooklyn Supreme Court today on a writ of habeas corpus and was released.

Justice Blackmar sat astounded when the affidavit of Edward Le Compte, the husband, was read as authority for her presence in the asylum. It took three questions, swiftly and lamely replied to, and Mrs. Le Compte was discharged.

Last Friday Edward Le Compte, who is an electrical engineer, went before the Department of Charities in Brooklyn and swore his wife was irrational and believed she had enemies. He also made affidavit she was without means of support, although at the time he was suing her to recover a home valued at \$25,000-No. 109 Woolsey street, Astoria—which he had given her on their wedding day.

HUSBAND REMOVES FURNISHINGS FROM HER HOME.

On this affidavit Mrs. Le Compte was taken to Kings County Hospital for observation. Sunday, the husband came to the home, which the wife had caused to be guarded against him heretofore, and removed the costly furnishings. No one was allowed to see her while in the hospital and, according to the statement of her attorney, Leon Forst, the complaint on which she was committed could not be obtained.

When she appeared in court today there was a special guard with her from the hospital and no one but her attorney was allowed to speak to her. She sat just outside the railing, dressed in a long, expensive gray fox coat, wearing pearl earrings.

When the case was called Justice Blackmar asked for a copy of the court's order of commitment. None was forthcoming.

"How did you hold her?" asked the court.

It was explained the Department of Charities had delivered her to the hospital.

"Yes, but by what right?" asked the Justice, becoming impatient. "Where is the commitment?"

A copy of the husband's affidavit was produced, in which he swore she was a pauper. The law was quoted to show the department might commit one without funds.

DECLARES HER HUSBAND THREATENED HER.

"I see no justification for the action," said the court. "The law says if she has no means of support, I understand this woman has valuable property. I never saw anything like this case. Do you mean to say it is legal to seize and shut up this woman on the word of her husband that she is crazy? I order her discharged."

Weeping with relief and joy, Mrs. Le Compte was led from the court room. The hospital attendant who had prevented her from talking to reporters was ejected aside.

"This is a conspiracy against me," she said. "My husband says I imagine this might be grounds for such imaginings. I have suffered terribly in the past three days. I thought I should actually go mad in that insane ward with maniacs and lunatics all around me. My husband called to see me and declared he would have me kept there for life unless I signed over my property to him."

Second Deputy Commissioner Fogarty of the Department of Charities upholds his action in sending Mrs. Le Compte to the hospital on the affidavit of her husband and the certificate of the physician. He said he had no means to know he was not being told the truth. Had he known of Mrs. Le Compte's condition, which would have been barred, naturally, from his department, he said.

Understanding the situation thoroughly, the action of this court might be misconstrued. For the past few days telegrams and letters have been received by me requesting protection and aid, not only from people in the vicinity of Brookville and Matamoros, but all along the border. Every possible means of securing protection from Federal troops was resorted to, with no success. The requests for aid continued to pour into headquarters here and it was necessary to do something to protect the people of that section, their property and interests."

The Governor said he felt the Secretary of War and officials at Washington did not fully realize the situation along the border.

The American Consul in Matamoros appealed to the Texas Ranger force for assistance, according to reports reaching here last night, and this was partly responsible for the order to Texas National Guardsmen to go to Brookville.

"This office does not care in any way to interfere with Federal action, but having jurisdiction from that side there was nothing to be done but take the steps of last night," said Gov. Co. said.

The Governor believes that the action taken by the Federal Government in sending troops to Brookville will aid materially in quieting the situation.

Mrs. Le Compte Leaving Court, After Being Declared Sane

(Specially Photographed for The Evening World by a Staff Photographer.)

that Col. Scott should be removed. The Colonel said today he would not dignify Clark's charges against the department by replies to them at this time, but said he would insist that Clark prove his allegations.

Gov. Sulzer today said he had read the testimony taken before the committee yesterday. "I have concluded," he said, "to suspend judgment in the matter until all the facts are developed by the committee of inquiry and I get its report and recommendations. My reasons for this position are apparent, because I do not want to do an injustice to any man and I am reluctant to draw conclusions until everything in connection with the subject is before me."

John N. Anhalt, the New York lawyer charged by Dr. Russell with having offered him \$20,000 to bring about Thaw's release, is expected to deny the charge before the committee tomorrow. H. A. Hoffman, a detective said to be in Thaw's employ, will be asked to tell what he knows of the bribery charge. Gustave Roeder, a New York newspaperman, who investigated Clark's alleged activities in Thaw's behalf, will also testify, the committee plans say.

The committee plans to go to Narragansett to question Thaw tomorrow. Alfred Henry Lewis, who recently interviewed Thaw by permission of Gov. Sulzer, has advised the committee that he will be in Albany prepared to testify on Friday.

H. Harry Thaw is reported as being ready to testify before the committee and produce proof of an offer being made him to gain freedom. It is said he will show documentary evidence to back up some surprising testimony.

FISKE-ROUSSEAU, Feb. 25.—Dr. John Russell, Superintendent of Matteawan Asylum, returned from Albany today. When questioned about his part in the Thaw bribery scandal, he said he had never promised to release Thaw and that his version of the attempted bribery would be found the correct one when the Governor's investigation is concluded.

"I did not release Thaw and would not do so if I could," said Dr. Russell. "As for these charges of bribery, Thaw is still here and that is the best proof of the matter."

SCOTT DEMANDS FULL THAW BRIDE INQUIRY.

ALBANY, Feb. 25.—Col. Joseph P. Scott, Superintendent of State Prison, today made a formal demand upon Gov. Sulzer's committee of inquiry that it make a thorough investigation of the charges made by his former secretary, William F. Clark, on the stand yesterday, that the "prison ring" which he alleged was made up of Scott and his "immediate underlings," were engaged in a conspiracy to involve the Governor of the State so that they might be retained in their profitable business in brokerage padons, which they had conducted under Gov. Dix.

Col. Scott, through his secretary, John G. McDowell, told the committee that nothing short of the most searching inquiry into all the phases of the alleged conspiracy against the Prison Department would satisfy the Superintendent.

"If it can be proved that Dr. Russell accepted a bribe of \$20,000 from an agent of Harry K. Thaw," said Col. Scott today, "then he should be removed from the superintendency of the Matteawan State Hospital and prosecuted. If he did not and was merely the victim of an attempt to bribe, then he should be exonerated."

"My own opinion of this whole bribery story is that Thaw has been bought again by somebody."

Clark, who is accused of having used Gov. Sulzer's name without authority in an effort to bring about Thaw's release after the "so-called prison ring" yesterday, volunteered the suggestion

GIRL LEADER PUT UNDER ARREST IN PATERSON STRIKE

Elizabeth Flynn and Two Other Agitators Accused of Inciting to Riot.

Within four hours after the agitators of the Industrial Workers of the World started a strike of the foreign-born weavers in the Paterson silk mills today the police began making arrests for inciting to riot. The first to be locked up was Elizabeth G. Flynn, who proclaimed herself the leader of the weavers' strike in this city before it became a fiasco.

Carlo Presta of No. 125 West street, New York, and Patrick Quinlan of No. 193 Third street, Jersey City, were arrested a little later. Samuel Kaplan, who was active in stirring up trouble in the New York hotels, promised to go back to New York and be good if he were not arrested and was set free on that promise.

Miss Flynn, Quinn, Presta and Kaplan addressed a strike meeting last night. They made the same arguments for force and destruction of the plants of tyrannical bosses which have been a part of the I. W. W. programme in similar disturbances in Paterson, Lawrence, Mass., and in the New York weavers' strike. Mindful of the bloody results before of such talk in Paterson, the police took preventive action.

The prisoners retained counsel and were taken to court in the afternoon. At the beginning of the day the strike leaders boasted that 5,000 weavers had left their looms and that 7,000 more and all the dyers would join them in a few hours. Reports from the mills indicated that not more than 500 workers had quit today.

William D. Hartwood, the big chief of the I. W. W., has sent word that he is on his way from Cincinnati to Paterson. He will be notified on his arrival that his first appearance before a strike meeting will be the signal for his arrest as a disturber because of the past record. The breaking up of the noon meeting today by the arrest of the intending speakers made the I. W. W. strikers present rather ugly. All the police in the city will be held to meet any emergency at a meeting set for tonight.

"Smiling with perfect health is a very apt saying," stated John Reazley Webb, the London expert, who is assisting in introducing Tona Vita. "For the face is often the mirror of health. But since I have been in America I have noticed so many city dwellers with their faces distorted by nervous debility, instead of smiling with health."

"While lots of people with pluck and grit will force a smile, no matter how much they are suffering, it is not that happy, spontaneous smile of good health."

"There is a smile in every drop of Tona Vita, the new tonic, which is meeting with such success in the treatment of nervous debility cases."

"Tona Vita has restored happiness to people who have been feeling despondent and blue; who have not been able to tackle their work as though they liked it; who have been troubled with a sense of futility after eating and have lost their keen, healthy appetite; whose imagination has led them to believe that they have been suffering from many different organic diseases; people who have been, as they express it themselves, 'generally run down,' but who really are victims of nervous debility."

"Tona Vita will put such people on their feet as only long stays in a sanitarium formerly was able to do, and the relief remains permanent after a complete course of this tonic."

"This tonic can be purchased in any of the up-to-date drug stores in New York City."—Advt.

tired last night and returned the verdict this morning.

Sneed shot Boyce to death on a street in Amarillo upon what was said to have been their first meeting after Boyce eloped with Mrs. Sneed.

Al Boyce Jr. was the second member of the Boyce family Sneed had killed on account of the elopement. The first killing was that of Capt. Albert Boyce sr., whom Sneed shot in a Fort Worth hotel. Sneed's defense was that he feared for his life and that Capt. Boyce was aiding his son, Al, in the elopement.

On Oct. 12, 1911, Mrs. Sneed proposed to her husband that she leave Texas with Boyce and go to South America. A few days later Sneed placed his wife in a sanitarium near Fort Worth.
